GENERAL NEWS.

BY TELEGRAPH TO THE OREGONIAN

The Result in Iowa

CHICAGO Oct 10.—The *Journal's* Des Moines special says: Returns from 113 counties which cast over half the vote of the state give a Republican majority on the state ticket of 2300. The Republican congressmen elected are—McCord in the first district; Price in the second; Updegraff in the third; Deering in the fourth; Clark in the fifth; Sapp in the eighth and Carpenter in the ninth. The Greenbackers elected Weaver in the sixth by about 1600 majority and Gillette in the seventh by about 600.

The Result in Ohio

COLUMBUS, Oct 10.—The Republican majority in the state is not less than 5,000 and probably more—a Republican gain of 40,000 over last year. The elected congressmen will stand thus—Democrats: Geddes in the 14th district, Atherton in 14th, Dickey in 11th, Ewing in 6th, Converse in 9th, Finley in 5th, Hurd in 7th, Hill in 6th, Lefevre in 3d, and McMahon in the 3d—total 11. Republicans: Butterworth in 1st, Young in 3d, Keifer in 4th, Neal in 12th, McKinley in 16th, Monroe in 7th, Updegraff in 18th, Garfield in 19th and Townsend in the 20th—total 9—a gain of three Democratic congressmen.

CINCINNATI, Oct. 10.—The *Tribune's* Cincinnati special says the only congressional district now in doubt is the 13th. The Democrats have elected 10 certain, and the Republicans 9. If the Republicans carry the 13th the delegation will be a tie.

Latest from Indiana

INDIANAPOLIS, Oct 10.—Returns received up till o'clock to-night show the following result in congressional districts: First district, Wm. Hillman (Rep) by 800 to 900 majority; second, T R Cobb (Dem) by 5,000; third, Geo. A Bicknell by 5,000; fourth, J. S. Haw (Dem.), by 400 to 500; fifth, Thos. Bowen (Rep.), by 1,000; sixth, W R Myers (Dem.) by 5,000; seventh, Gilbert de la Matyr by 200 to 400; eighth, W J Hostetler (Dem.) by 800; ninth, contest very close, Godlove Orth (Rep.) probably elected by a small majority which is not conceded by Democrats; tenth, W H Calkins (Rep.); eleventh, Calvin Cowgill (Rep.); twelfth, W. G. Colerich (Dem.); thirteenth, Jno H Baker (Rep.) by 1,500. The senate will stand 24 Democrats, 25 Republicans and 1 National. In the house the Republicans will probably have 45, Democrats 51 and Nationals 4.

Latest from Iowa

CHICAGO, Oct. 10.—Following are the latest returns from the Iowa election: 110 towns and 4 counties give Hull (Rep.) for secretary of state, 1,911 majority; 8 towns and 4 counties in the 7th district give Cummings (Rep.) for congress, 424 majority; 9 towns and 4 counties in the 8th district give Sapp (Rep.) for congress, 3,367 majority; 39 towns and 4 counties in the 9th district give Carpenter (Rep.), for congress, 4,405 majority.

Death of Gen. Pillow.

HELENA, Ark., Oct. 10.—Gen. Gideon J. Pillow, of Mexican war notoriety and brigadier-general in the confederate service, died this morning of congestion at his place at the mouth of St. Francis river.

Disastrous Prairie Fires

[illegible], Oct. 10.—Advices from Benson, [illegible] report prairie fires extending [illegible] miles square, destroying many [illegible] houses, barns, cattle and grain. [illegible] lost all, and are reduced to a [illegible] destitution. There will be much suffering this winter in consequence.

EUROPEAN NEWS.

The Endless Eastern Question.

LONDON, Oct. 11.—A correspondent at Shumla says that he is informed on what he considers good authority that Gen. Rebs has passed Ahmusjid and is advancing on Tirnova, which will be captured at any moment. The porte's circular recently issued to the powers reserves the sultan's rights over Bosnia and Herzegovina, and concluded with solemn warning that the occupation of Novi Bazar as certain to lead to terrible disaster. The circular also appeals to the powers to support in a friendly manner the porte's representations against Austrian cruelties.

Eddystone Lighthouse.

LONDON, Oct. 10.—The Eddystone light house is apparently uninjured, but a heavy sea prevents communication.

Spain and Morocco.

MADRID, Oct. 10.—A Spanish official has been murdered near Tetuan. Morocco and Spain demands reparation.

Some of England's Pensioners.

[From the London Times.]

The year's accounts show that the following annuities are payable out of the public revenue: £4,000 a year to the heirs and descendants of William Penn forever; £1,050 to the heirs of the Duke of Schomberg; £4,000 hereditary pension to the Earl of Bath; £2,000 to the person to whom the title of Earl Nelson shall descend; £4,000 to whom the title of Duke of Marlborough shall descend; £3,000 to the representatives of Jeffrey Earl Amherst; £2,000 to the heirs (male) to whom the title of Viscount Exmouth shall descend; £2,000 to all and every of the heirs (male) on whom the title of Lord Rodney shall descend; £676 hereditary pension to the Earl of Kinnoul. The following are among the perpetual pensions but are payable during the life of the present holder of the title mentioned and his next successor: The Duke of Wellington, £4,000 a year; Viscount Hardinge, £3,000; Viscount Combermere, £2,000; Lord Seaton, £2,000; Lord Raglan, £2,000; Lord Gough, £2,000; Lord Clyde, £2,000; Lord Napier, of Magdala.

Gen. Hancock.

Speaking of the gathering in Philadelphia the other day of the Aztec club, composed originally of officers of the army who entered the City of Mexico with Gen. Scott, the *Army and Navy Journal* says:

Nearly all of those members present at this gathering were lieutenants during the Mexican war, and although they are yet in the full vigor of manhood it can be readily understood that there must be a wonderful change in the personal appearance of these gentlemen. Think of Gen. Hancock as he was in 1847. He was then a fair haired very young gentleman of twenty-three, whose head was could span. He is still unusually boyish in appearance, of remarkably fine figure, but colossal in size.

Sawthorne's Usual Triumph.

The vote in the senate on Watts insane asylum bill was as follows:

Yeas—Applegate, Applegate, Bentley, Brown, [illegible], Fulton, Grim, Lord, Palmer, [illegible], Waldo, Watt, Mr President—14.

Nays—[illegible], Burch, Davis, George, Green, [illegible], Hare, Moore, Sawyer, Pryor, Pennington, [illegible], Penfieldaw, Colvig, Davidson—[illegible].

THE STATE FAIR.

THE EIGHTEENTH ANNUAL EXHIBITION OF THE OREGON STATE AGRICULTURAL SOCIETY.

STATE FAIR GROUND, Oct. 10.

When [illegible] of the annual gathering of those interested in the agricultural mechanical and other industrial pursuits in Oregon draws near the first thought that suggests itself to those who contemplate attendance is the weather. Unfortunately the conditions precedent in this regard this year are by no means favorable. Yesterday forenoon and last night the rain fell all too copiously to allow of any hope for a dry

OPENING DAY.

This morning, though not raining, the air was damp and cold, the sky overcast with clouds, and the managers and people present and interested in the Fair somewhat downhearted, but not wholly discouraged. At early dawn, however, the cry of All aboard for the Fair ground was heard all over Salem, and quite a number of people took passage for the grounds among whom was your correspondent determined to find what may be found and see what is to be seen. The road from Salem to the grounds is muddy, but not excessively so as yet, but should the showers weather continue for a day or two longer it will be the muddiest piece of road in the state.

Arriving at the Fair grounds we found quite a number of campers and the arrangements about it in the usual state of advancement for the first day.

A good many fast horses, as your readers already know, have been here in training for some time. Stock horses are not so numerous yet as in former years, nor are there as many cattle, sheep and swine as are usually present at the beginning of the Fair. After the stalls have been filled, we will take up the most of them in detail, but to-day any description would be imperfect and only require repetition later in the week.

The dealers in agricultural implements, etc., are on hand in great strength and exhibit a larger amount of farm implements and machinery than ever before. Among those leading off in this line we notice Knapp, Burrell & Co., Newbury & Chapman, Hawley, Dodd & Co. and Frank Bros., of Portland; T. B. Wait of Salem and D. M. Osborne & Co. of San Francisco, all of whom exhibit wagons, buggies, mowers, thresher, reapers, rakes and every other article used in agricultural life of the latest patent.

Among the most abundant establishments found on the ground are those of parties who are prepared to take in the loose change of the people returning therefor in some cases hardly *quid pro quo*. A very great many booths are occupied, and filled with everything to tempt the eye or the palate of the crowd. Shows innumerable are to be found, and if somebody don't lose money on some of them the weather clerk will have to smile more propitiously than now. Most of them are catch penny affairs without doubt, though there may be some with merit.

Plummer and Kelly & Cole have their fruit dryers up and running. The display of fruits dried by the Plummer machine is one of the finest things in the pavilion, but I will not trespass on the ground which belongs to my colleague in that department.

THE PAVILION.

It will probably not be possible to give in order and detail any account of the articles on exhibition in this department before the early days of next week. At this stage of proceedings it is in a chaotic state and its contents present and prospective can only be guessed at. Exhibitors are busy unpacking and fitting up and the number of boxes, cases, bales and trunks that await opening indicates a grand display. The space, so far as we are able to determine, is allotted much as it was last year, there being no changes noticeable in the general plan. Clerks in the various divisions are busy entering the seemingly numberless articles which, when properly arranged will place the pavilion in its annual gala dress.

The fine art department bids fair to be magnificent, judging from the display already made by Buchtel & Stolte and Frank G. Abell. The ladies' department we are assured gives evidence unusual at so early a stage of being filled to repletion with the various articles displaying their skill, patience and ingenuity. But beyond the rolls of bright rag carpet, the piles of cunningly devised quilts and a few samples of worsted work in place upon the walls there is as yet nothing to indicate its coming beauty. The floral department is already gorgeous with lovely flowering plants and stately evergreens and is at present the only portion of the pavilion wherein one cares to linger. In the horticultural department but meager display is yet made, but sufficient is seen to justify the assertion that the present year has been as generous as its predecessors in maturing luscious fruits, plump grains and mammoth vegetables. A new feature is noticeable in Mechanics Hall, where we find a corner devoted to natural history, supplied by Prof. O. B. Johnson. The specimens here exhibited show painstaking care and research and will receive more detailed mention at a future time. The attendance to-day is mainly of those whom business calls hither.

The air, even in the pavilion, is chilly and disagreeable, while the ground is damp and the general appearance of things gloomy because of the weather. However, hopes of bright skies are entertained and officers and managers are working as faithfully and to all appearances as cheerfully as though these hopes were already assured.

THE RACE TO-DAY

Was a running match free for all single dash of a mile, for a premium of $100. The entries, eight in number, were as follows: J. Eldamson named b g Sleepy Dick 6 years old; N. Combs named br g Three Cs 4 years; Andrew Allen named ch s Volant, 5 years; M L White named b m Alice Cornelia 8 years; John Miller named b f Portia Knight 3 years; M Modie named b g Pacarow 4 years; Geo Ross named s g Red Horse 4 years; J C Hunter named b s Nipper 5 years. The last named horse was withdrawn, being lame and the other seven came on the track at 2 o'clock and drew for places, it falling to their lot to be placed in the order named. After three or four ineffectual attempts a very fair start was had. Three Cs and Portia Knight took the lead and ran nearly neck and neck for three quarters, when the little mare, which had sold in the pools for about $2 50 while her opponent sold for $12, began to forge ahead, and coming down the home stretch, she got in some splendid work and came under the wire winner of the race in 1:54—good time considering the condition of the track. The winner is well known for a 3-year old, and her friends are justly proud of her performance to-day. The friends of Three Cs, who backed him to such odds, were greatly chop fallen, and will go a little slow on California horses hereafter. All the animals in this race appeared in good condition and the contest between the ladies was lively. [illegible] was loudly cheered [illegible] she came down the home stretch in such gallant style.

The rain began to fall just as the horses started and up to the time I write it is [illegible].

The low hung cloud [illegible] their garments [illegible].

Though it rain the show appears to be continuous and the campers are returning to their tents while those who stay in Salem over night are thronging the road into it.

IN GENERAL MATTERS

Are there any of which mention would be of interest? The day having been on the whole very dull, one except the little excitement attending the races. The odd fellows' societies are actively engaged in their excitement and all as far as they can spare their time are calling, and entertain all who have business relations with them.

The town of Salem is greatly crowded and among the visitors is a large proportion of an undesirable class and if we don't have some violations of law to record before the week closes it will be owing to police vigilance more than to a lack of disposition on part of the hoodlums and thieves that make their annual pilgrimage to the capital on occasion of the fair.

To counteract any bad influences that may be exerted the Y M C A has hung a banner on the outer wall and will hold religious service at morning, noon and evening each day on the grounds. A prominent attorney of Portland whose name is not inconsistent with strong, however, suggests that their exertions are quite as much needed in the state house as on the fair ground.

The Aurora restaurant, an establishment about as old and as well known as the fair itself, is in full blast and furnishes the usual line spread for the hungry multitude.

The race for to-morrow will be a trotting match, mile heats, 3 in 5, for double teams for a premium of $250. The entries are Lady Justina and Mate's mate by Alex Shannon and Parrott and Mystery b and s gs by L B Lindsey.

Our letter to-day has been very general of necessity, owing to the confusion incident to the opening of the exhibition. Let us all hope for a more satisfactory day to-morrow.

PACIFIC COAST NEWS.

CALIFORNIA

Death of D D Colton.

SAN FRANCISCO Oct. 10.—Gen D D Colton, vice president of the Southern Pacific railroad, died in this city last night 47 years old. The remains have been embalmed. The funeral will not take place until the arrival of his wife and daughter now on their way home overland. They will be met at Omaha to-day by special train and will come through in advance of regular time. It is feared that the embalming process will not prove a success, but the result will not be known until to-morrow. Should it be successful the funeral will be postponed until after the arrival of Mrs Colton, who is expected Monday next.

California Constitutional Convention

SACRAMENTO Oct 10.—The following resolution was offered:

WHEREAS it is represented that the U S government is about to conclude a commercial treaty with France which in its effect will prove destructive to the wine interests of California, therefore

Resolved, That the subject be sent to the committee on agriculture and commerce with instructions to inquire and report thereon as they may deem expedient.

Resolution was adopted. Also a resolution that the convention memorialize congress to abrogate the Burlingame treaty. A petition from citizens of Napa was presented memorializing the convention to frame the constitution so as to recognize the Christian religion. Memorials in favor of woman suffrage, a petition exempting church property from taxation and engrafting a local option law in the constitution were also submitted.

A Beginning for the Fair

SALEM Oct 10.—At noon to-day a man calling himself Brooks from Chicago, stepped into McCully Bros and asked permission to write a note at the desk. He abstracted two sacks of three hundred dollars from the safe, but was arrested.

J. H. Albert of Ladd & Bush accidentally shot himself in the hand to-day. One finger is a total loss.

Rain is falling and prospects are not favorable.

Satin Coming Again

[Recent Paris Letter.]

Just one word for the ladies. Satin dresses are becoming fashionable again, a good thing for Lyons. Since Mrs Manning was hung in black satin some thirty years ago in London, the soft and glossy fabric has been laid on the shelf. It is admirably adapted to the present umbrella case style of robe as it follows the outline of the figure like water. As a question of economy between satin and silk I am not competent to judge, never having had the happiness of dealing in either article. I notice among the leaders of the ton not only black, but satins of all colors of the rainbow, and especially for underskirts.

An elaborate portrait of Queen Victoria as empress of India is to be extensively circulated among the Hindoos under government auspices. The queen is portrayed as a stately and handsome lady of about thirty or thirty-five years, much more gorgeously arrayed than was even Solomon in all his glory.

Some touching and beautiful superstitions prevail among the Indian tribes.—*Chicago Journal*. Yes, and one of them is that the scalp of a white man makes a better show on the wall than an oil painting.—*Detroit Free Press*.

WASHINGTON TERRITORY REPUBLICAN CONVENTION

The committee made two reports upon Skamania and Wahkiakum counties.

The convention adopted the report referring to delegations without contest.

The convention finally admitted Nick Larson as delegate from Skamania county and G. W. Durgin delegate from Wahkiakum.

The committee on permanent organization recommend the temporary officers hold permanently.

John H. Hall was appointed assistant secretary.

The committee on resolutions was appointed as follows: G. A. Weed, C. M. Bradshaw, J. H. Hall, W. B. Daniels, T. M. Reed, W. C. Potter, J. H. Smith, D. B. Jackson, J. G. Megler.

EVENING SESSION

At 7 o'clock the convention assembled again and the first motion was to adjourn, which was accomplished fixing the hour at 8:00 P. M.

At 9:30 the convention was called to order when the report of the committee on platform was received, the resolutions adopted being as follows:

Resolved, That we maintain an unfaltering fidelity to the principles of the Republican party, and believe in its capacity to administer the affairs of the government as faithfully and successfully in the future as it has done in the past.

Resolved, That an irredeemable currency is a national curse and that all legislation tending toward inflation is suicidal to the financial interests of the country and the prosperity of our people.

Resolved, That all capital is based upon labor, and from it proceeds all national prosperity, and all attempts to antagonize labor and capital we deprecate as hostile to the best interests of all our people.

Resolved, That we are in favor of a reasonable extension of time for the construction of the Northern Pacific railroad, with its branch line across the Cascade mountains, provided that the company build at least 50 miles of the branch each year after such extension until the whole is completed, and provided that the lands within their grant in this territory shall be open to actual settlers for preemption or entry in limited quantities at a reasonable maximum price to be established by the government, and provided that the main line of said road shall not be changed from the original location, and provided further that should the company fail to build the road according to the terms of such extension, all their right in the unearned portion of the land grant should immediately thereafter cease, and the lands revert to the government.

Resolved, That we are in favor of the immediate restoration to the public domain of the lands on the branch line of the Northern Pacific railroad as originally located over the Skagit pass of the Cascade mountains, and that all settlers within the abandoned lines who have either paid double minimum price or have homesteads of less than 160 acres be compensated by the government, and that all settlers within the limits of withdrawal before notice thereof was received at the local land office be confirmed in their title.

Resolved, That the construction of the Seattle and Walla Walla railroad is a work of vital importance to the people of the territory, as also of the whole northwest, and we earnestly recommend the aid of the government in its construction.

Resolved, That we are unalterably opposed to any dismemberment of this territory.

Resolved, That if the people of this territory shall vote in favor of the constitution at the coming election our delegate in congress is hereby instructed to use his best efforts in favor of admission into the Union as a state, and if the constitution should be rejected he is instructed to procure if possible the passage by congress of an act enabling this territory to form a state government.

Resolved, That the opening of the Columbia and Snake rivers and the removal of obstructions to navigation therefrom is of great local as well as national importance, and should be aided and encouraged by liberal congressional appropriations.

Resolved, That the immigration into the United States of the Mongolian race is an evil that the government ought to prohibit and we favor the speedy modification of all treaties that give them the right to come hither, and we urge on the passage of such laws as shall protect our people from their encroachments.

Resolved, That experience having fully demonstrated the bad policy of our present Indian system the same should be at once abolished, the Indian reservations should be opened to settlement, all annuities should cease, the tribal relations of the Indians should not be recognized, and they should be made citizens on the same footing as other citizens, secured in the same rights and privileges, subject to the same duties and responsibilities and liable to the same penalties for violations of law.

The resolutions were adopted without change as the platform of the Republican party of the territory.

The convention, on motion, proceeded to an informal ballot for delegate to congress, which resulted: Brents 28, Ferry 16, Bradshaw 9, Briggs 1, Abernethy 8, Wingard 1, Jacobs 1.

After much sparring on the merits of balloting and viva voce voting the convention proceeded to a formal ballot for delegate, which resulted: E. P. Ferry 30, Thos. H. Brents 34, A. S. Abernethy 6.

Second ballot—Brents 36, Ferry 33, Abernethy 5.

Third ballot—Brents 36, Ferry 33, Abernethy 5.

A motion to adjourn to 9 A. M. to-morrow was decided by 40 nays to 37 yeas, and they decided to vote again, resulting 33 in favor of adjourning and 38 against and the motion was decided lost.

After a recess of fifteen minutes a motion was made to adjourn till 9 A. M., which was lost on a tie vote.

A fourth ballot for delegate resulted: Brents [illegible], Ferry [illegible], Abernethy [illegible].

After this ballot the friends of [illegible] withdrew his name and by suspension of the rules Thos. H. Brents of Walla Walla was unanimously chosen as the Republican candidate for delegate.

In a short and pithy speech Mr. Brents thanked the convention for the honor of the nomination and placed himself squarely upon the platform adopted by the convention.

Capt. J. H. Smith of Walla Walla was nominated by acclamation for adjutant general.

Capt. A. Slorah of [illegible] was nominated for adjutant general.

D. W. Smith of Port Townsend was nominated for commissary general.

F. W. Sparling of Seattle was nominated for quartermaster general.

The first judicial district nominated P. T. Sturdevant for prosecuting attorney.

The second judicial district nominated unanimously by acclamation N. H. Bloomfield for prosecuting attorney.

[We state upon authority of the president of the convention and delegates from five counties of said district that the delegates from the counties of Clarke, Cowlitz, Klickitat and Lewis in the second judicial district nominated by acclamation N. H. Bloomfield for prosecuting attorney, the counties of Thurston, Mason, Skamania, Chehalis and Wahkiakum not participating in the nomination in any manner whatever.—Ed.]

The third judicial district nominated Irving Ballard for prosecuting attorney.

Joint council candidate from Clarke, Skamania and Yakima, R. O. Dunbar of Klickitat.

Joint representative for Clarke, Skamania and Klickitat, G. W. Waldron.

Joint councilman from Jefferson, Clallam, Island and San Juan, John Alexander.

Joint councilman from Columbia, Whitman and Stevens, D. T. Percival.

Joint councilman from Thurston and Lewis, Amos Tillis.

The territorial committee was nominated as follows: [illegible] D. [illegible], [illegible] Tarbell, [illegible], J. M. Welch, [illegible] D. Hill, [illegible], [illegible] Megler, [illegible] Byron Daniels.

The following [illegible] was unanimously adopted:

Resolved, That we have the most perfect confidence in the personal and official integrity of Governor E. P. Ferry, and that we regard his administration as eminently successful and acceptable to the people of the territory.

A unanimous vote was passed thanking and complimenting the chairman and secretaries for their impartial presidence over the convention.

After this the convention indulged in a half hour of speech making that was profitable to the cause of the Republican party. H. G. Struve, C. M. Bradshaw, President Horr and N. H. Bloomfield were prominent.

The convention then adjourned sine die.

AGENT WILBUR'S ACCOUNTS

Unjust intimations having been given out by irresponsible persons here that Agent Wilbur is a defaulter, we print the following letter which speaks for itself:

TREASURY DEPT., 2d COMPTROLLER'S OFFICE,
WASHINGTON, Sept. 21st 1878.

James H. Wilbur, Indian Agent—SIR: I have the honor to acknowledge receipt of your letter of the 20th instant referring to the notices issued by this office of suspensions heretofore made in certain of your accounts as Indian agent of the Yakima Indian agency, Washington territory, and to settlement of those accounts recently approved in this office, and requesting a written statement of those settlements.

In complying with your request it affords me pleasure to state that your accounts as Indian agent from the time you entered on the duties of that office to the 30th of December 1875 have been adjusted and settled, and the balance of said accounts up to the day last named is found to be $2,874 88, which balance was the sum then in your hand, chargeable to and properly held by you as such agent. The suspensions referred to in said notices have been satisfactorily explained by you and the items suspended were in the course of said settlement properly placed to your credit.

Your accounts for the time and subsequent to December 30, 1875, will as you request be adjusted and settled as soon as practicable. And I deem it due to you to say that the above mentioned suspensions were made because of real or supposed failure to comply with prescribed forms in regard to accounts and vouchers and that there is no reason to suppose there is or ever has been any actual deficit in your transactions as Indian agent.

Very respectfully, W. H. UPTON,
Comptroller.

How Disease is Spread.

[From the New York Times.]

It is not strange that cholera rages in India where cleanliness and hygiene are seldom thought of. As an instance of the general intelligence a small village in the presidency of Madras was lately invaded by the scourge and out of a population of 100, 56 were attacked and 34 died. Medicines were sent to the place and the messenger who carried them found the natives washing the clothes of the cholera patients in a large well that supplied water for the town. Examples of like sort are constantly occurring. Ignorance slays many more than disease does in every part of the east.

Hayes when a Young Man

Of Mr Hayes an old schoolmate says that he would never join in fun or mischief and so never had a chum and that he was known as a boy who had no heart to spare. He never had any confidences and never unbosomed himself. Another friend says that Mr Hayes has a great desire to be on good terms with every one, but at the same time wants his own way. He spreads his friendship over too much ground and this (says the friend) is the reason of his desire to keep the good feeling of the north while persistently acquiring that of the south. This is not the way of great men says the friend.

The Lord Chancellor of England

Lord Cairns, the present lord chancellor of England, who has just been made an earl, is regarded as one of the ablest and strongest judges in the whole roll of the chancellors of England and has proved himself not only a great lawyer but also a statesman of distinction. He has in fact, for years been one of the leaders of his party and his political services alone would have given him a sufficient claim to the honors which have been conferred upon him.

"Hung be the Heaven's with Black"

[From the Lynchburg Virginian, Dem.]

The labored deed of hard-earned infamy is done and Benjamin F. Butler is the nominee of the Democratic party of the old Bay state for the highest office in the gift of her people! "Oh, what a fall was there, my countrymen" from the days of John Hancock, Edward Everett, George N. Briggs and John O. Andrew! Massachusetts and especially Massachusetts Democrats never sank to such depths before! Will there be any so poor as to do them reverence now.

FRIDAY MORNING, OCT. 11, 1878.

LETTER FROM THE CAPITAL.

SALEM, Oct. 4.

"Trouble never comes singly" in this world, is a truism that is as old as the hills. The troubles of the State administration multiply as the sparks fly upward. The latest disarrangement of finances pertains to the printing department and is part of the great comedy of "measure for measure." The committee appointed to investigate that part of the public service discovered, an expert, a young man without guile, which is probably due to the fact that he learned his trade in the office of your legislative correspondent, and the honest education he had there having been afterwards carried into the profession of the law, it is needless to say that he has a brilliant future before him. The committee appointed to scent around the State printing bureau made haste to secure his services as measurer, and when he had made the estimates and measurements, careful computation was had and a sum total reached. The amount drawn from the treasury and the amount arrived at as proper to have been audited to the credit of the State Printer, showed a discrepancy of at least $7000—so they say, and so it is rumored among the craft preservative. There has been bad calculation somewhere, and the consequences will be disagreeable to our friend, the Brigadier-General, who gallantly left his shouting stick and gray goose quill to rest in the State Printer's office, while he marched over the Cascade mountains to the relief of the beleaguered citizens of Wasco and Umatilla, and remained there with his little command till the war was over. When our troubador and Brigadier came home from the war he knew that all the while the State printing had been going on bravely without him, and so it had, and he expected, no doubt, to have the pleasure of drawing seven or eight thousand more dollars from the State treasury; Whereas, it is probable that the State will think it necessary to balance the old account before it settles the new. Mart Brown had a Standard expert, and is no slouch in that direction himself, and when we recollect that they are both Jackson Democrats and naturally opposed to a liberal construction of the constitution and the laws, it is surprising that the discrepancy was not the other way. Somehow the State printing seems to be born to be a stumbling-block in some pilgrim's progress, and it is many years since a State printer came to any good. The last one who lived through it—I believe his name was Pittock. Printers belong to the "composite" order, and this affair seems to be "mixed." I am not at all inclined to charge Mart Brown with being to blame, and as the State employed an expert to secure its interests—not Brown's—we will hope for the best. "Leaves have their time to fall," and this is a time when things that hung high and waved beautiful seem inclined to drop. October is hard on foliage that is fully ripe.

It is surprising what a reaction is growing in the public mind concerning the much maligned administration of George L. Woods. The most that was ever said against George, was that being made to superintend the Penitentiary he *would* ride thither, especially in raining weather; and some accused him of visiting the institution, taking Jacksonville or Eugene in his way thither, but I always believed that wasn't so. The portrait of Washington that hangs, life-size, behind the chair of the President of the Senate, it seems is borrowed, and the State has either to pay for it or let it go, and there is a growing disposition to let it go, and secure some artist not engaged just at this present moment in painting a portrait of Mount Hood, to manufacture one of George L. to replace it with, so that we can have something fresh as well as virtuous. It is also remembered that Sam May *took* what he got away with, and did not cover his sins up with vouchers that the law couldn't put out of countenance. It is thought a few lessons on reform from Samuel could be put where they would do the most good. There certainly is no reason why Sam should longer absent himself from the land he loves so dearly from feelings of shame, as he undoubtedly does. He might come back and try it awhile, and see if he didn't have to blush for some of the rest of them.

A SWAMP LAND ANGEL.

I took the name of Quincy A. Brooks a little in vain the other day, in connecting him with E. M. Walker. Mr. Brooks assures me that he never sold or transferred an acre of swamp-land to Walker, and at most only offered to recompense him if he would secure the titles to those lands. Furthermore Mr. Brooks says, he complied with the law and paid the gold coin on every acre on which he filed, in which respect he certainly did better than most, and deserves credit, most of them who filed having done it on speculation and not made payment. Quincy comes nearer being an angel than most, having conducted his affairs according to law, and I "builded better than I know" when I gave him that appellation. He deserves, at least, to have credit for honest dealing as a land locator.

INSANE ASYLUM BILL.

This important bill, the one introduced in the Senate by Mr. Hall, sleeps a sleep that may know no waking. It was amended and tinkered and patched until it got to be a pretty-good bill; deserved its pet name, "the crazy bill," and then went to vote, receiving a majority, but not enough to constitute a majority of the Senate. Three Senators were absent and so it failed, though perhaps it may be called up and make another effort. Let counties support their own insane; let idiots remain in County Alms Houses, and make all those able to do so pay for the board of their relatives, and the State would have money in its purse at the end of each "biennial period."

THAT PENITENTIARY.

The project for leasing the State prison means W. H. Watkinds and J. H. Hackleman, who, however do not, for some incomprehensible reason, want their names before the public. Watkinds has been out for a brief period, and Hackleman has the odor of the late State administration on him so strong that a little shadow becomes him admirably. This proposition to take the penitentiary off the hands of the State won't bear close investigation. You have denounced the bill, and here are some figures for the members to consider. Mr. Burch's statement of all expenses for the eighteen and a half months past is $37,824 74, which if sustained by vouchers. This with an average of 150 prisoners makes the cost per week $3.63. But the State has received earnings from convict labor, shown in his report, which are genuine true receipts to $9,422.83, leaving as the actual expenses $28,401.91. This makes the weekly cost for each convict $2 72, but there should be a still further credit on the prison labor account, as during the 18½ months of his administration Mr. Burch has made many valuable improvements within the stockade, besides building a new stockade that was much needed, using convict labor to saw out 300,000 feet of lumber at a saw mill a few miles off, with which stockade and workshops have been constructed. Disinterested parties put the value of improvements at $15,000, but the prison books show that the labor and improvement accounts are credited with $11,591 25, which would reduce the total cost of maintaining the penitentiary for 18½ months, less actual earnings and improvements the state needed to have made, $16,810 56; and that would put the cost of the keeping of the prisoners under Burch at $1 61 per week.

That computation refers to the past, and it must be kept in mind that Mr. Burch has now more convict labor contracted for than ever before; that the making of convict labor successful has in fact only just commenced.

Now for the next two years Burch estimates that there will be required $50,000. That the income from convict labor, etc., will be $36,000, leaving as cost to the state $14,000. If this lease becomes a law, and the average of prisoners is 180 for two years, at 30 cents per day, will cost the state $39,420. The lessee will receive that amount, cash, from the state. Also, he will receive all the convicts can earn, and even at the rate of 106 men that are now leased, not reckoning for any increase of the labor force, there will be an income from leased labor of $28,000 also from keeping United States convicts, $8,000. All of which, figured up, makes the round and attractive sum of $75,420.

The state is doing well enough with the prison as now managed, and states, like individuals, ought to learn to let well enough alone. The universal opinion of all who know him is that Mr. Burch has conducted the prison successfully.

OUR

OREGON REMEDIES!

THE OREGON

BLOOD PURIFIER

LIVER and KIDNEY REGULATOR!

A Purely Vegetable Family Medicine.

The OREGON BLOOD PURIFIER is not an ordinary mixture, but a purely vegetable and most scientific compound, prepared with the greatest of care. No Minerals, Alcohol or herbs of any poisonous or narcotic nature enter into its composition. Some of the choicest and most delightful Aromatics are properly combined with it, making it acceptable to the stomach, pleasant to the taste, and easily taken by the most fastidious person or peevish child. The Oregon Blood Purifier has no equal as a preventive of any disease that is caused by Impurities of the blood.

This is the ONLY remedy that will effect a permanent cure of LIVER COMPLAINT and KIDNEY DISEASE, prevalant in this country.

It Purifies the Blood!
It Regulates the System!
It Cures Dyspepsia!
It Gives New LIFE and VIGOR to the System!

THE OREGON

Blood Purifier

IS A HOME REMEDY.

Although hundreds of our citizens and their families are using it with the best results, we do not propose to drag their names into print and publish to the world their ills and complaints (as is done by many Eastern nostrums to make themselves), we prefer to let all judge for themselves.

IF YOU ARE TROUBLED WITH

COUGH OR CATARRH

Caused by irregularities of the stomach or bowels, you will find in this medicine a great help and relief!

Many say "my blood is not out of order, I was never diseased!" It is not in every case the blood is diseased, particularly in this climate; this malarious atmosphere affects the liver, hence we recommend the use of this great Liver and Kidney Regulator.

We simply ask you to try a bottle of this Home Medicine; give it a good, fair square trial, and you will certainly be convinced that it is the best medicine for this particular climate ever placed before the people.

TO THE LADIES.

By its peculiar resolvent and cleansing properties it removes all those distressing complaints with which so many females are troubled in this damp climate. It is to them a great

REGULATOR!

It removes all cutaneous eruptions in the skin, such as Pimples, Black Heads, etc., leaving it soft clear and smooth, imparting to it a beautiful and delicate hue.

DYSPEPSIA.

The Oregon Blood Purifier

Will be found a great help in relieving this dreadful disease.

The Oregon Blood Purifier

Since it's introduction to the people of this country has had a sale unprecedented by any other medicine, and the demand created for this

Oregon Vegetable Remedy

has far exceeded our most sanguine expectations.

Price $1 per Bottle, or 6 Bottles for $5.

Sold in every city, town and village in Oregon.

Our well known and really good preparation widely known as the

Willamette Fever & Ague Mixture,

Since its introduction has cured many cases of

FEVER AND AGUE

when all other remedies have failed. In fact, it is the ONLY remedy for malarious diseases so prevalent in this damp climate.

The WILLAMETTE FEVER & AGUE MIXTURE is an excellent TONIC, and a few doses taken occasionally will "build up the system" and prevent all KINDS OF FEVERS. If you are a sufferer from FEVER and AGUE do not fail to try this our Oregon Vegetable Remedy, (no quinine used in its preparation.)

Price $1 per bottle. For sale everywhere.

A kind invitation is extended to ALL to visit our exhibition in the PAVILION at the STATE FAIR, and see for yourself what the wilds of Oregon can produce.

FRIDAY MORNING, OCT. 11, 1878.

SUNDAY SCHOOL CONVENTION FOR OREGON AND WASHINGTON.

Wednesday Afternoon Session.

This session of the convention was opened with religious exercises, by singing, repeating the XXIII Psalm and prayer by Rev. M. Judy.

The topic "Teachers' Meetings," was introduced by a paper from Capt. Wilkinson. He said that the first decade of his religious experience was in the Sunday school. Children of this world should not be wiser than the children of light. Are there discoveries in nature and not in God's Word? The lesson leaf should not be brought into the school. The teacher's meeting should not be a Bible class. The teachers themselves must perfectly comprehend the lesson. Satan is not afraid of the unprepared teacher.

The next topic "Teachers' Helps," was introduced by Rev. Mr. Whitworth of Seattle. He said the first and most important help is the Lord. Upon Him we can lean. In Him we can confide. The Holy Spirit guides and directs. The Scriptures are to be read with prayer. The Scripture is our text. Nothing can take their place. Other helps—the concordance is suggestive; the catechism is of use; the International lessons are also suggestive; also the commentaries are important; all to be compared with your own views. Also history and chronology should be studied. The more knowledge a teacher has the better he can teach—the more success he will have.

The topic "Normal Classes" was introduced by Rev. Mr. Baker, who said: "I have no model to present. The training of the Sunday school teacher was as necessary as the training of teachers of day schools. Must deal with the head before we can reach the heart. He would say that the first point to be observed was preparation; the second point preparation; the third PREPARATION. To accomplish this we should first read; second, commit; third, compare; fourth, analyze; fifth, question; sixth, define; seventh, apply.

The topic, "The Instruction of Primary Classes," was introduced by reading an interesting paper from Mrs. W. Lair Hill, by Rev. Mr. Adair.

The topic "How to Teach Bible History" was introduced by the Rev. Mr. Dennison. He said: The topic has a secondary but an important place. The mind will grasp the tangible. History serves as a nucleus, around which to gather other important truths. Don't make it a primary object. We spend too much time on those side objects. Christ is the centre. But the history is important. Introduce it in the infant class, in the way of story. The bereans classes have failed somewhat in teaching history systematically. History and chronology go together. Constantly use scripture illustrations in your teachings. Outline scripture history by ten periods of Old Testament history and two periods of New Testament history. Arouse an enthusiasm in your schools with reference to Bible history.

The next topic, "How to teach Bible Geography and Chronology," was introduced by Rev. Mr. Stratton. Said the primary idea of geography is to compare one section with another. The focal centre of Bible geography is Jerusalem. He illustrated by a map—and illustrated chronology by an exercise upon the blackboard.

The topic, "How to teach Bible Doctrine" was introduced by a paper from Rev. Coats, which was listened to with interest. He said: 1. Become thoroughly convinced that God has broken the silence of eternity in his word. The Bible tells how we should do and act. 2. He needs to be convinced that it is adapted to all classes of minds. Should avoid

1. Technical expressions in teaching.
2. Do not make a hobby of any doctrine.

Should

1. Illustrate as did the Master.
2. Know how to ask questions.
3. Be sure you get a right polarity. Have a centre. Jesus Christ.
4. Have a conscious end in view—that of the conversion of the soul and its growth in grace.

It was moved and carried that the minutes of the convention be published upon the condition that money enough be raised to pay for the publication.

The Secretary was authorized to procure a permanent Record book, and also the Treasurer was authorized to get a book for the use of the Treasurer of the convention.

1. Thanks of the convention were tendered to the Y. M. C. A. for the use of their Hall. 2. To persons who could not be present and yet furnished papers and essays for the convention. 3. To the Railroad and Transportation Companies for reduced rates of fare. 4. To the people of Portland for their hospitality to the members of the convention.

The publishing of the minutes were referred to Mr. Atkinson, Mr. Gill, Mr. Stratton, Mrs. Wakefield and T. M. Boyd.

The convention adjourned to meet at the close of prayer this evening.

EVENING SESSION.

The convention was called to order at 9 o'clock by Mr. Horton, of Seattle.

The subject of the publication of the minutes was taken up and discussed.

Mr. Atkinson thought it would take $100 to publish them in proper form.

Mr. Acton regarded the publication of minutes of value, and that the addresses of all ought to be included in the publication, as many of them were of an important character.

Mr. Atkinson regarded Mr. Gill's introductory address, reviewing as it did, the past and stating the present, of the Sunday school, of great value.

It was ordered that the Secretary prepare a list of the Sunday schools represented, and call for contributions. $6 50 was collected, and $50 50 was subscribed on subscription and placed in the hands of E. J. Northrup, Treasurer, for collection.

The Secretary was requested to say in this report, that any Sunday schools or persons wishing minutes of the convention or desiring to aid in the publication of the same and the principal addresses, could do so by remitting the amount they would feel willing to give, to Mr. E. J. Northrup, of Portland.

On motion, the convention adjourned.

THE COURTS.

U. S. DISTRICT COURT—DEADY, J.

PORTLAND, Oct. 10, 1878.

Louis Salon vs Bark Cape Briton—Cause tried and submitted.

U. S. vs Patrick Sage—Information filed for selling liquor to Indians, plea of guilty entered and defendant sentenced to the County Jail for a period of two months.

U. S. vs Thomas Jennings—Information filed for deserting from a ship. Cause set for trial tomorrow morning.

COUNTY COURT—RICE J.—WIBERG AND HOLBROOK, COMMISSIONERS.

COMMISSIONERS.

In the matter of the petition of J. J. Kaiser and others, for location of a county road in sections 6, 7 and 8, in T 1 N R 1 W—Report of viewers of damages read, and court ordered the payment by the county of damages as assessed by the assessors of damages; and that the road be located and established in accordance with the report of viewers heretofore filed.

LAW.

Jos. Knott vs F. P. Yost—Judgment for plaintiff on findings of court for $90 75 and costs.

Dr. Mintie's Vegetable Nephreticum.

Is it curable? No. It is intended for diseases of the Kidney and Bladder. This great Tonic supplies a want long felt by a certain class of sufferers, and is taking a high rank among remedial agents in this country. First. Because it is made specially for kidney and bladder complaints. The different ingredients of which it is composed acting conjointly upon the muscular and mucous tissues of those organs. Second. The combination is the result of large experience and careful study of the organs and their diseases. Third. The materials (which are purely vegetable) are selected and used in its manufacture. In acute inflammation of the Kidneys or Bladder, pain or soreness in the back and loins, with drowsiness and feeling of languor the NEPHRETICUM will give immediate relief, and a free use a perfect cure, by strictly following directions. Price $1.25.

Dr. Mintie's English Dandelion Pills.

Do they cure everything? No. They are intended for diseases that result from malarial poison in the deranged liver. Symptoms of a disordered liver—dull pain in the side and shoulders, loss of appetite, coated tongue, costive bowels, sick headache, dizziness, weight in the stomach, often acid stomach and belching up of wind, low spirits, loss of energy, unsociability and foreboding of evil. Delay is dangerous. Many of the leading citizens of Portland, from experience will testify as to the superior virtue and value of these as specialties. Price 25 cents per box. To be obtained of all druggists.

Liver is King.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want.

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instruction; and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.

Office, 63 First street, over McCormick's Franklin Bookstore.

THE WEEKLY CALL,

Published in San Francisco, California, is the cheapest weekly Journal on the Pacific Coast. It prints each week five columns of a continued Story; Two complete Stories for adults and one for children; Correspondence from the Eastern States and Europe; Editorials; Telegraphic News from the Eastern States, Europe and the Pacific Coast; Local News; Religious News; Dramatic and Musical; Fraternal Society intelligence; Agricultural News and Market Reports from New York, Chicago, Boston and London; Commercial Record; Mining Stock Reports; Fashions; Farm, Garden and Home; Household Receipts; Puzzles for the Children; together with a large amount of miscellaneous reading.

The proprietors of THE WEEKLY CALL have had prepared a Map of the States of California and Nevada, which will be presented to every person sending one dollar for one year's subscription to the paper. The map is superior to any heretofore published, inasmuch as it shows the location of every town in either State. The Map alone is worth more than the subscription price of the paper, and will not be sold or given away to persons outside of subscribers to the Weekly.

A New Serial Story is about to commence and persons should subscribe at once.

ANOTHER PHASE OF THE SWINDLE.

Not only have the public resources been wasted by prodigacy and swindling in the management of state lands, but under the policy which has been pursued private individuals have been robbed and plundered. We do not now refer to those persons in California who were misled and swindled through the papers furnished by Chadwick and Canu, but to our own citizens who have bought state warrants payable out of swamp, overflowed, tide, five per cent. sale, and other land funds. Gov. Chadwick, in his recent message, stated the amount of these warrants at $138,600. They were issued for construction of various wagon roads, and were offered in the market as valid warrants. Judge Boise has recently pronounced the whole issue unconstitutional and void; and innocent purchasers in many instances are defrauded of large sums. All this is in keeping with the general management of state affairs during the last eight years. Nearly every principal measure has been part of a general system of public swindling or private spoliation. Naturally when these warrants were offered for sale they were accepted as valid; the act under which they had been issued was regularly passed by the legislature; it had the signature of Gov. Grover, who was accounted a lawyer, and from his long public experience was supposed to know whether the measure had the sanction of the constitution or not; and it could not be supposed that he would approve an act plainly in violation of the fundamental law. All the warrants bore the signature of the secretary and the great seal of the state to attest their genuineness. Offered in the market under these circumstances, few persons would suspect them. Thus the state has been an instrument in a great act of robbery. It is not likely that money will be appropriated directly to pay these warrants, since that was not the promise under which they were issued; but it would seem no more than right to authorize the warrants to be received in payments on swamp lands. We ought to clean up the whole of this foul business of the last eight years, get done with it as soon as possible, pocket the loss once for all, and take better care in future. The state is under moral obligation to protect its citizens against loss on account of its own deliberate acts. It has issued warrants and invited people to take them. Though they are invalid in law, in equity and justice they constitute a good claim upon the state. It is to be hoped that out of the abundance of recent experience warning for the future will be taken, both by legislature and people.

FOREIGN SUPPLY OF WHEAT.

France is not generally counted among wheat importing countries, because she, as a general thing, supplies herself, and sometimes spare a surplus over into England. This year France has had bad luck with her wheat crop. It promised well enough, but long rains coming on just when this grain had passed the reaper, made sad havoc with the harvest. The grain was reported, by Paris papers of September 1st, to be sprouting and rotting in the sheaves. According to the most careful figures of the French statisticians the country will need to import 7,000,000 quarters, or about 33,000,000 centals of wheat. The London *Farmer* pertinently asks whether France and England can both supply themselves at the low rates which are now prevailing.

There is another point to influence the price of wheat. Algeria, which usually is one of the supplying countries for England, must import for her own needs this year. There is literally no wheat in the country, and under such auspices there would be nothing astonishing to see several hundreds of thousands of quarters go that way, instead of coming from that direction to England.

The *Pacific Rural Press*, presenting these facts, says that the hope of all these competing wheat buyers is now resting upon the United States, as Russia and India are both crippled this year. The English papers are beginning to perceive that, although we shall have large amounts to send them, there is no reason to believe that our crops will be at all beyond computation, as our reports early in the harvest made them. So the *Press* thinks that as each week passes it seems more clear that the prospect for higher prices before another crop is good. The yield in our great saddle states falls almost one third below early estimates—a fact which may have no little influence on prices before the expiration of six months from this time.

There was a spirited contest in the Republican convention of Washington territory over the nomination of delegate. Active efforts were made in behalf of Gov. Ferry, but the feeling that the nomination was due this time to the eastern part of the territory was against him, and Thos. H. Brents, Esq., of Walla Walla, was nominated. Mr. Brents is a man of good abilities and good principles, and we hope to see him elected. It is much to his credit that he is not a chronic office seeker making a trade of politics for his own advancement. The resolution in regard to the Northern Pacific railroad cannot be called judicious. The people will learn after a while, perhaps, that they can't hamper a grant and get a road. If they don't want to give the land very well; let them say so. But there is no use of pretending to give it and at the same time loading it with restrictions which would make it practically unavailable.

Probably it will forever be impossible to effect any change whereby the state may be relieved of part of the oppressive burdens entailed by the present system of committing and keeping the insane. Also perhaps it would be as well for the state to submit in future without complaint to this system of greedy plunder; for it has been demonstrated often enough that the legislature, which at every session is brought under the influence of the system, will do nothing to amend it. It seems now to be accepted as part of the settled law of the state that Dr. Hawthorne is entitled to have what ever he demands; and as he can pass or defeat any bill he sees fit, it is useless to look to the legislature for any act to protect the public interests in this behalf. Nevertheless this fact shall not prevent THE OREGONIAN from calling public attention to this great and apparently ineradicable abuse. There is some talk in the legislature of taking measures to build an asylum; but that is all nonsense. The present contractor is master of the situation, and will not allow such bill, or any other that may be opposed to his interests, to pass. He will now renew the contract with himself on his own terms; and all the legislature has to do is to levy the tax, while the organs of the contractor, with hypocritical cant and snivel, will tell the tax payers that it is their duty to submit without protest to an enormous scheme of money-making for private benefit, because "God in his wisdom sees fit to drive men mad."

THE OREGONIAN must decline to enter into discussion with the *Catholic Sentinel* as to whether Galileo was forced to recant, whether any persons were ever persecuted by the holy inquisition, or whether there ever was any such events as the massacre on St. Bartholomew's day. There are some things set down in history which most people have been accustomed to accept as satisfactory proof that those events occurred; and, immersed as we are in other labors, we must be content with those reputed facts and leave to the leisure and ingenuity of the editor of the *Sentinel* the task of proving the contrary. We have not cast any reflections upon the Catholic church for its course as to these events, because we have always realized any church is not likely to be much better than the times in which it exists and the circumstances that surround it. Men, whether in a church or out of it, are still human beings and subject to human passions and errors. They cannot be fallible in every other relation and infallible, either singly or collectively, in an ecclesiastical organization. Paul did wicked things when he verily thought he was doing God service. These remarks are very far indeed, from the inquiry into the physical causes of yellow fever and the folly of attempting to remove them through a process that belongs to the emotional and spiritual nature of man; but still we haven't wandered so far as our friend of the *Sentinel* has done.

The Democratic papers are not agreed as to the action of the old line Democrats of Massachusetts in making a nomination against Ben Butler. Some are of the impression that it insures his defeat, while others prefer his election to the election of a Republican. The St. Louis *Republican*, one of the wisest and best, says: "If the Faneuil Hall convention really desired, as its supreme object, to save the state from the dishonor of having Butler in the executive chair, its plain duty was to adjourn without making a nomination." This would have left every Democratic opponent of Butler's free to vote for Mr. Talbot, the Republican nominee; but while Mr. Abbott is in the field there is reason to fear the masses will not clearly see the only way by which the defeat of Butler can be rendered a certainty, or if they see it, will be prevented by party affiliations from following it even in the landing of a Republican in the executive chair.

Hendricks, of Indiana, has been making speeches against the Republicans for levying assessments on office holders. But when Hendricks was commissioner of the general land office in 1856 he made an assessment on his clerks for political purposes. But he doesn't complain of that. It's an assessment by Republicans that worries the good governor. Practical politics consists almost wholly in one party's discovering the mote in the other party's eye while neglecting the beam in its own.

The Chinese embassy had $100,000 in gold at San Francisco. The treasurer of the United States, accepting it at the sub-treasury in San Francisco, paid it to Chin Lan Pin's bankers in Washington. No charge was made, and D. Kearney, Esq., wasn't consulted.

Gen. E. L. Applegate has bought the Albany *Register* and will conduct it as a "National Greenback" sheet. With the creative motto, *fiat pecunia*, as capital to draw upon, it ought to be very easy to make the paper successful.

Butler Won't Learn Anything.

[From the Boston Journal.]

Butler is incorrigible. We have told him three times that the French assignats were legal tenders and that the government had forced them into circulation by resorting to the most severe penalties, yet that heedless old man goes out to Indiana and tells the people the assignats were land warrants.

ROOT TEA!

The Reliable Cure for Chronic Complaints of Liver and Kidneys.

THE ONLY THOROUGH BLOOD CLEANSER. The most pleasing, grateful and satisfactory Strengthening Balsam known, constantly effecting surprising cures of wasting or debilitating diseases and complaints arising from weak or impure blood, feeble circulation or impaired digestion. When all modes of treatment fail. Is of great benefit in threatened or actual consumption and heart disease, owing to its peculiar and great influence on the circulation. For the ills and weaknesses of women it is Nature's most suitable and reliable remedy.

LIVER--KIDNEYS,

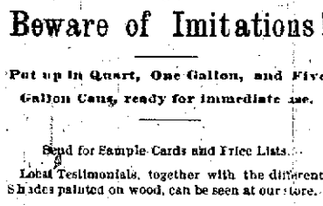

Its regulating and strengthening action on these organs is different to and more desirable than that of any article heretofore in use; for indigestion, biliousness, etc., as a tonic, anti-malarial, etc., it is unequaled, while in chronic complaints it gives relief when all other remedies fail, and is frankly acknowledged to be the *only* cure for many chronic complaints of a complicated nature.

CATARRH,

The success of the CALIFORNIA ROOT TEA in curing Catarrh is proverbial, and surprises many who do not understand the nature of this terrible disease, which in most cases can be permanently cured only through the blood by a thorough course of this vegetable remedy, conceded to be the only thorough and permanent blood cleanser known, a course of it completely eradicating for all time the most virulent types of blood and skin diseases, rheumatism, etc. All who use it, leading druggists and physicians gladly attest its great sterling worth. Sold in its truly vegetable form, in packets at $1; each packet makes a quart of rich balsam, of which the dose is two spoonsful; three times daily, making it go much further than other medicines. Make like tea or put in wine, etc.; pleasant to take when nicely sweetened. Sold by druggists and country merchants. N. B.—Until further notice it will be sent by express or mail to any address on receipt of Express or Postoffice order, one packet $1 or six for $5 00.

The Daily Oregonian.

FRIDAY MORNING, OCT. 11, 1878

CITY.

DOUBLE SHEETS DAILY.—The Daily Oregonian will appear as a double sheet every morning from this time to the close of the State Fair. A large number of extra sheets will be printed for circulation at the fair and to fill special orders. During the next ten days The Oregonian will be by far the greatest news paper issued in the state, and its large edition will make it the best medium of advertising ever offered in Oregon.

ADVERTISEMENTS FOR FAIR WEEK.—Advertisements for the double sheet Daily Oregonian to be issued during the State Fair should be handed into the office at once. Our office will be established on the Fair Grounds for the reception of subscriptions and advertisements.

BADLY BEATEN.—A few days ago Cole ... a soldier who is well known in Port ... went over to Vancouver, and while there ... on a spree Wednesday night, some ... became involved in a drunken brawl ... three soldiers who beat him about the ... and face in a shocking manner. RAILROAD ACCIDENT.

A FREIGHT TRAIN RUNS OVER AND KILLS ... FAT HORSES—A GENERAL SMASH UP—PA... GER TRAIN DELAYED—NO ONE INJURED

Quite a serious railroad accident occurred yesterday afternoon about 3 o'clock to the north bound freight train which arrived at ... o'clock P M. The accident occurred a short distance from Canemah—between that point and Oregon City. As the freight train came sweeping around the curve just below Canemah at a pretty fair rate of speed, the noise frightened a band of horses which was up on the cliff above. The animals came running down panic stricken and attempted to pass the train. A general smash up followed. One of the ... animals in a vain attempt to cross the track fell between the cars and was instantly mangled in a terrible manner. A number of horses were caught similarly and killed. Fortunately the cars were not ditched but several of them were thrown from the rails and the wheels striking with great force against the ties, cut many of them in twain. A number of the wheels were smashed and several of the cars badly wrecked. As rapidly as possible the engineer brought his train to a halt but not until considerable damage had been done. The last cars were badly smashed up. It is one of the worst accidents which has occurred since the road was built. Strange as it may appear no person was injured. The wreck could not possibly be cleared away in time for the north bound mail and passenger and the express trains to pass up and down. As the trains could not possibly pass the mails, passengers etc were transferred. Some time was required to accomplish this work. In consequence of which the north bound train which was due here at a quarter to 9 o'clock did not reach the depot till after 10 30. A large force of men are engaged in clearing away the wreck and to day the regular time will be made by the trains. No possible blame can be attached to any one. The accident was wholly unavoidable. That no one was killed or even injured seems quite remarkable. At the point where the smash up occurred the track is about eight feet above the road which runs near the river bank. Not one of the cars was thrown down the embankment.

THE YAKIMA MINES.

Mr J A Shoudy, the founder and principal owner of the town of Ellensburg, in Yakima county W T calling this morning showed us some very fine nuggets of pure gold taken from the mines in Yakima county. One "rock" as large almost as a tea cup and weighing about three hundred dollars, is the finest native specimen we have ever seen. This and several smaller chunks came from the Swauk mines about twenty four miles from Ellensburg and upon which twenty five men own claims and are doing well.

The Peshastin quartz mines, seventeen miles from the Swauk are paying well and Mr Shoudy brought with him about two hundred and fifty ounces of retorted fine gold to prove the statement. About twenty five men are engaged at these mines and six or seven small mills are being successfully operated.

In agriculture, stock raising and general business as well as in mining, Yakima is prosperous. A great many people of industry and vim have moved in during the summer just past and the county will soon be one of the most wealthy in the territory.

BOARD OF DELEGATES.

Last evening a regular meeting of the board of delegates of the Portland fire department was held in police court.

In the absence of Joseph Bachman president of the board Mr Wm Braden was chosen president *pro tem*.

A communication was received from the secretary of Columbian Co No 3 stating that S Owens, C C Meal H W ... A J Jones and Ed Wicks had resigned. Communication placed on file and secretary of the board instructed to make the proper entry in the department records.

A communication was received from the secretary of No 1 stating that ... had resigned from that company. The communication was read and the proper entry ordered in the records of the department.

A communication was received from the secretary of Multnomah Co No 2 stating that exempt certificates be issued M W Henderson and Vin Cook. The application was referred to the committee on certificates who reported in favor of issuing the same. The report was adopted.

Application for exempt certificates to L Everding J B Weeks and Robert Irving were also granted.

Application for department certificate to Jos D King Jos Hornung and H J Hudson was granted.

A communication was received from the secretary of Protection engine Co No 4 in relation to certain persons who had been elected members of that company at a recent meeting. Owing to some irregularity in the proceedings the whole matter was referred back to the secretary of that company.

A communication was received from the secretary of Willamette engine Co No 1 stating that at a recent meeting the following persons were elected members: Ben Wood, Frank Clancey, C J Elwanger, S B Schwab, M Peter and Carlton Price. The secretary was instructed to issue the proper certificate.

On motion the board adjourned.

PERSONAL.

Col Geo Taylor of Dayton is in the city. His Portland friends are always glad to see him.

Hon Thos H Brents of Walla Walla, Republican candidate for delegate to congress from Washington territory is in the city and favored us with a call last evening.

Capt John D Smith of Walla Walla a retired officer of the army and who was nominated on Wednesday by the Republicans of Washington territory as a candidate for brigadier general of the territorial militia made us a pleasant call yesterday in company with the candidate for delegate. Capt Smith has been identified with the territory for some years commands its only militia company (which is composed of the best men of Walla Walla) and is a thorough tactician.

VOTE OF THANKS.

The Father Mathew T A B Society take this method of returning their sincere thanks to all societies and associations as well as private individuals who kindly assisted to make our first annual celebration a success. To the longshoremen and riggers union in particular which, in spite of the disagreeable weather faced the music and added largely to the parade. To the officers of the various fire companies for use of bunting to decorate the hall; to Mr S J McCormick and the several ladies and gentlemen who made our evening entertainment so pleasant and amusing, to all who sold tickets or otherwise assisted us in any way we return our sincere thanks and assure them that their services will long be remembered.

MEETING.

FROM THE SPANISH.

Many years have floated by
Since we parted, she and I.
Now together here we stand,
Eye to eye and hand to hand.

I can hear her trembling sighs,
See the sweetness in her eyes.
Silently I fold and press
Her soft hand with tenderness.

Silence, who shall fathom thee?
Who reveals the mystery
Hidden between loving eyes,
Burning hands, and answering sighs?

MADLY IN LOVE WITH HIS COUSIN,

And Shooting Her Dead Because She Rejected His Offer of Marriage.

At least 200 men are scouring the woods of southern McKean county, Pa., in search of Andrew Tracy, a lawyer of Smithport, who shot and killed Mary Reilly in that village on Wednesday night. Miss Reilly was Tracy's cousin. She lived with her parents on a farm two miles from Smithport. She was exceedingly handsome and accomplished, and Tracy was madly in love with her. A fortnight ago he proposed to her and was rejected. On Wednesday Miss Reilly was in Smithport visiting friends. In the evening she was out walking with Belle Mullin, with whom she intended spending the night. The two girls saw on the street Andrew Tracy and his friend, Frank McCabe. The two young men were behind the girls. "I don't want to meet Andrew," said Miss Reilly to her friend. "Let us hurry on home." It was about half-past eight o'clock. The girls hurried on. When they reached the gate of Miss Mullin's residence on Main street, a man ran up behind them. They both turned quickly to see who it was. The man drew a pistol, and shot Miss Reilly through the brain. She dropped dead on the sidewalk. The powder from the pistol burned Miss Mullin's face, and the concussion threw her to the sidewalk also. The man ran rapidly away.

A large crowd soon collected. The pistol ball entered Miss Reilly's left temple, and passed the ear through her head. Miss Mullin had no suspicion as to who the murderer was, as he had not been recognized by her. It was midnight before it was ascertained that Andrew Tracy had fired the fatal shot. Then a crowd of men went to his mother's house. Mrs. Tracy and John, and another son, were the only ones at home. They denied all knowledge of Andrew's whereabouts at first, saying he had gone to Port Allegheny that day, and had not returned. Mrs. Tracy afterward acknowledged that her son had come home about 9 o'clock greatly agitated. He said: "Mother, I have committed a fearful crime, and must fly from this place. You will never see me again." He took a loaf of bread and a quilt, saying he should need them both in the timber, and then fled to the woods. All efforts thus far to find him have proved fruitless. If he had been captured at any time yesterday, he would have been lynched. It is not possible for him to escape alive. Tracy was a promising young lawyer, and well thought of. He is about 25 years of age. Miss Reilly was 23.

A Russian Hero.

Gen. Abramoff the Russian envoy to Cabul, has already earned a name on more dangerous fields than those of diplomacy. At the great battle of Irdjar, which ended the Bokhariote "holy war" of 1866, he and Col. Pestalkor commanded under Gen. Romanoviski, who, finding himself with but 7,000 men in front of 70,000 Bokhariotes, wished to retreat. His two subordinates, having vainly urged the peril of such a course in the face of overwhelming odds, went out as if to obey him, and at once opened fire. The enemy, confounded by this audacity, and by the havock which the Russian rocket batteries made among them, gave way on all sides, and the commander-in-chief, as has happened in other countries than Central Asia, gained the chief credit of a victory which was wholly due to his lieutenants. The black skull-cap which surmounts Gen. Abramoff's frank, manly face commemorates a yet more daring exploit in 1870, viz., the heading of the forlorn hope at the Shekhri-Sebzian fortress of Kitab. By some mistake, the supports failed to come up, and the gallant handful were overwhelmed by superior numbers. In the thick of the fight, a native marksman discharged his piece close to Abramoff's forehead, the bullet plowing a ghastly furrow right across the scalp from front to back, the scar of which is still visible. But despite all his terrible experiences, the governor of Samarcand is still as hearty and genial a companion as ever, abounding in jokes and good stories, and the very essence of hospitality to all who visit him.

The person brought forward to pray at the Worcester Convention did pretty well; but still we are inclined to think that the Illinois Republicans have the champion supplicator of the country. At their last convention he was not so specific in his directions to the Almighty on financial topics, but he was more replete with vast and varied misinformation on the questions of the hour and seemed to catch the spirit of the body before which he prayed with so much readier enthusiasm. We have some delicacy about criticising convention piety, but we cannot help regretting that Mr. Kindig so far forgot interstate courtesy as to speak disrespectfully to the Lord of the commonwealth of Maine. Did he suggest, when he asked for a sound currency from Heaven, the melting into ingots of the beaten gold of the New Jerusalem? Or did he when he asked God to circulate hard-money literature, pledge the convention to stop the circulation of Gorham's greenback speech? If the final part of Mr. Kendig's petition praying for the deliverance of the land from demagogues be granted—and he spends like a person who possesses great influence above—we would commend him to the south of Spain as his future residence. The climate is delightful.

Litigation is as uncertain in Great Britain as in this country and more expensive. Just before the house of lords adjourned, its committee of law lords decided a very old and important railway accident case of Slatterly versus the Dublin, Wicklow and Wexford railway. Six years ago the widow of a person whom a train had killed began suit. First verdict for widow. Appellate court reversed its second verdict for her again, but only to place the cause upon the proper appeal railway for a through trip. Five of the lords at the end of her court-journey sustained the jury and three voted to set it aside. Majority of two for widow. Verdict, £1,200, or $6,000. But, drily adds the newspaper reporter of the case, "Mrs. Slatterly will get little of this, as the learned lords ordered each party to pay their own costs."

Boston *Post*: We would respectfully inquire whether Eugene Hale has chosen the subject for his leisure yet.

BEAUTY:

OR, THE

Secret of a Fair Face.

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate, possesses that basis and starting point of real beauty—a pure and clear complexion. What nature has thus denied, art must be called upon to furnish. It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion. It conceals all natural blemishes in the most surprising and effective manner. It removes all roughness, eruptions, redness, blotches, freckles, and tan with magical power. It drives away all evidence of fatigue and excitement. It makes the plainest face beautiful. It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund and plump. It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle. *The Magnolia Balm removes all blemishes and conceals every drawback to beauty; and, while it is as harmless as water, it is so life-like in its effects that the closest observer cannot detect its use.* Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

TO THE GENERAL PUBLIC.

WE WISH TO SAY THAT CANCER CAN BE cured without the use of the knife or the loss of blood. In proof of which we would respectfully refer the afflicted to the honorable names attached to the following certificates—not foreign or irresponsible names, but your neighbors and friends, with whom you may consult and advise, and by this means assure yourselves whether or not there was any quackery, trickery or humbuggery practiced in their cases. We could refer to many other cases treated in this valley, but deem it unnecessary. Also to a number of cases treated years ago in the Western States and California. Birth Marks and Wens removed, Tumors and Chronic Sore Legs cured on the same principle as Cancer—no wire. No payment is required until a cure is effected. Examinations and consultations free. The undersigned being considerable of the time away from home on professional business, may be consulted by letter at Salem, Oregon.

W. H. GREENE.

Salem, Oregon, Aug. 23, 1878.

I hereby certify that Mr. W. Greene, of Salem, Oregon, removed a dark spot or birth mark on my daughter's face. It was taken off without the use of the knife or loss of blood. It was on her face from her infancy. It was covered with coarse white hair near half an inch long. B. S. WARD.

SALEM, Oregon.

This is to certify that Mr. Wm. Greene, of Salem, Oregon, treated my wife for cancer in December, 1877. The treatment was without the use of the knife or loss of blood. The cure has every appearance of being permanent. B. S. WARD.

SALEM Oregon.

This is to certify that Mr. W. Greene, of Salem, Oregon, treated my son for cancer in December, 1877. The treatment was without the use of the knife or loss of blood. To all appearance the cure is permanent. D. C. CRESWELL.

SHERIFF'S OFFICE, DALLAS, Polk Co., Ogn.

This is to certify that Wm. Greene, of Salem, Oregon, treated my brother, H. D. Hall, and his wife, of Buena Vista, Polk Co., Oregon, for cancer, and to all appearance the cure is permanent. The treatment was without the use of the knife or loss of blood. The operation was performed in January, A. D. 1878. I would heartily recommend Mr. W. Greene to all thus afflicted. L. M. HALL, Sheriff of Polk Co., Oregon.

FRUIT FARM, MARION Co., Oregon.

To all whom it may concern: I hereby certify that my mother had a cancer on her face just under the eye for two years, and it was growing very fast. She employed Mr. W. Greene, of Salem, Oregon, November, 1877, and he removed it in just one week without the use of the knife or loss of blood, and with but little pain, and is to all appearance permanently cured. Also that a daughter of Mr. J. S. Vaughn, of Butteville, Marion county, Oregon, had a cancer in the corner of the eye, which Mr. W. Greene took out at the same time, with complete success, and is well. I do recommend him to any person that is afflicted with cancer.

NOTE.—Both the above cases were hereditary.

M. C. GEER, Ex County Clerk.

PEORIA, Linn County, Oregon.

This is to certify that Mr. W. Greene of Salem, Oregon, treated me for cancer in December, 1877. It was on my nose and of seven years' standing. It was removed without the loss of blood or the use of the knife, and to all appearance the cure is permanent.

JOHN McCOY,
Ex County Commissioner.

AMITY, Yamhill Co., Oregon.

I hereby certify that Mr. W. Greene of Salem, Oregon, treated me for cancer February 1878. It was on my face and of ten years' standing. It was cured without the use of the knife or loss of blood, and but little pain.

J. C. WILLIAMS,
Ex County Commissioner.

Roof Preservative!

AFTER YEARS OF TESTS IN DIFFERENT climates, this preparation is acknowledged superior to any other in use. We apply it to tin or shingle roofs, leaky awnings and porches. It forms a heavy elastic coat, does not crack and peel off as ordinary paint. Stops all leakage permanently, is proof against moss, sparks, coals of fire, or water.

Parties interested may examine our work on Odd Fellows Temple, Alisky & Hegele's buildings, and others. Unquestioned references in this state.

See samples and leave orders at our office No. 47 Taylor street between Second and Third. s20d1mo

OREGON LEGISLATURE.

Tenth Biennial Session.

House.

SALEM, Oct. 9.

House met at 9 A. M. Reading of journal was dispensed with and proceeded to further consideration of S. B. 48, for payment of Indian war claims of 1877 and 1878.

A lengthy discussion followed, in which many participated, on proposed amendment to insert "just and reasonable" with regard to claims to be audited and allowed. It was claimed that the idea was perfect in the bill without this being added, and urged that the late hour of the session required no loss of time, which would result from sending it back to the senate with amendment, and Reed showed that the senate could and would have concurred in the amendment in one tenth the time wasted in the discussion. The amendment was finally adopted and the bill passed as amended—yeas 56, nays 1.

Committee on corporations reported H. B. 172, to incorporate Baker City; ordered engrossed.

Tyson, from special committee to consider a change in the constitution to abolish the office of state printer, reported a resolution, providing such change, the governor and treasurer to advertise for bids after the 31st day of July next; resolution was adopted.

H. B. 167—To permit directors to select text books for school districts and abolishing office of superintendent of common schools; was reported against by committee in charge, and it was moved to indefinitely postpone.

Grant made quite a speech against the superintendent and the text books. Said he was told $10,000 could be had to insure that the legislature would not touch the matter. Alluded to the unreasonable monopoly in school books, and grew quite eloquent. Thought there was a big job in school books.

Dorris spoke in favor of the present system; there were over one thousand districts in the state and perhaps not five boards of auditors were competent to fully understand the question of text books. They were elected for sterling honesty, but were not educated to be able to judge on literary merits of books. That being so it was necessary to have a system. Oregon could not go backward on education, and services of superintendent was important. His committee now had a report to offer and a bill to introduce that they were confident would relieve the state of its great burden.

Purdin opposed the bill, and spoke of value of superintendent's services importance of teacher's institutes.

Shelburg thought we needed the superintendent, but the school book monopoly is odious.

Gates said too much machinery in the school system, and books were twice too high.

Wintzingerode opposed the abolition of office of superintendent; modification was needed to secure books at fair prices.

Reed moved to lay on the table; lost.

Tyson would willingly strike at the book monopoly, but this bill struck at something else. Misrule and disintegration will follow repeal of the law, and we will lose all we have gained.

Motion to postpone lost, and bill considered engrossed.

S. B. 31—To regulate measurement of lumber in the log; read first time; also

S. B. 34—To incorporate Marshfield

S. B. 51—Relative to transport of logs, etc, in rivers.

S. B. 56—Relief of John Flannagan, treasurer of Coos county, who was robbed of about $1,300 state money; referred to committee on claims. Recess.

AFTERNOON SESSION.

House met at 2 P. M.

Bewley offered the following:

WHEREAS, One of the members of this house has stated upon the floor and in debate upon H. B. 167 that he was offered $10,000 to get said bill out of the way; therefore be it

Resolved, That said member give the name of said party offering him the said $10,000 to the members of this house.

Grant explained that the nature of his remark was misunderstood and that he had not seen any agent of book publishers, but that he had been assured that such was the case in private conversation.

After some debate the resolution was tabled.

Purdin—H. R. 32, for appointment of a special committee to ascertain if there is a record in the office of superintendent of schools to show the vote by which the series of books now in use was adopted; adopted.

Speaker appointed Purdin, Hughes and Bradley such committee.

H. B. 85—To pay expense of centennial exhibit, was ordered engrossed for third reading.

BILLS READ FIRST TIME.

S. B. 105—To amend act to provide for the construction of Willamette valley and coast railroad; rules suspended and read twice by title, rules further suspended and read third time.

Green explained that the bill asked for no new thing, only for extension of time.

Hamilton said they had ten miles graded and ready for the ties.

Speaker explained his vote that he believed sec. 7 of the bill was a violation of Art. 9 of the constitution.

The bill passed, 56 to 1.

Gates, chairman judiciary, reported H. Bs. 4, 79 and 41.

H. B. 4—Relating to conveyances; with amendment, which was adopted.

Thompson moved suspension of rules to receive reports of standing committee; lost.

Hewitt, from judiciary, reported back H. B. 41; ordered engrossed.

H. B. 179—Relating to smoking opium; with amendment, was reported from judiciary; ordered engrossed.

H. B. 58—Relating to state institute for the blind; was reported back with amendments; ordered engrossed.

H. B. 171—Was returned from committee; to incorporate city of Weston; read third time and passed.

H. B. 159—From committee with favorable report; to incorporate city of Union; rules suspended, read third time and passed.

Dorris asked to have H. B. 120 taken up out of the regular order and referred to the committee on education, with leave to report at any time, as it contains a section that will relieve the state of the school book monopoly and is very important; rules suspended, bill read and so referred.

Townsend asked leave to call up H. B. 135, substitute for H. Bs. 7, 11 and 40, for management, selection and sale of state lands, &c.

A debate followed as to the merits of the bill, which provides, among other things, that swamp land claimants can pay $2.50 an acre for the same and get title thereto. The debate was participated in generally.

Gates knew that several sections are unconstitutional.

Purdin showed up the swamp land matters, and that this bill allowed titles to be made without reclamation.

Grant thought $2.50 a good price and the state could afford to take it.

Townsend thought we have a strong lobby against the bill, and some members seem to reflect the ideas of the lobby. The public demands something to be done on this matter.

Reed thought the bill should go to the judiciary committee. The heading of the bill looked to him in conflict with the constitution. The judiciary was the proper committee. He heard it borne on the breeze that there is a job in the bill. That is a good committee. One of the most important bills that will come up this session will cause commendation or condemnation according as it is properly passed.

Starkweather wanted the bill to fall into the hands of its friends, as it is one of the important measures of the session. All have forebodings that the land department has not been well conducted. The bill guards the whole system of lands, from whatever source derived and he wanted it referred to select committee, and not to those who are already interposing constitutional objections to it.

Starkweather being in the chair, Thompson, of Lane, said the bill had supervision of good legal talent, and was not inspired by the lobby; wanted to see the bill in the hands of some committee that would use due diligence in returning it. The present system, or want of system, was cause for grave apprehension. He wanted it in the hands of a committee of whom the chairman was not already its uncompromising enemy.

Brobeck lived in a swamp land county, and was interested in the bill, wanted it in hands of a special committee of five. People in his section were being turned out of their homes by swamp land speculators.

Campbell of the judiciary committee took the part of that committee; he did not believe in the power of the lobby; had heard swamp lands always spoken of with condemnation and was certain something ought to be done; thought the state had yet no title to these lands, and what titles were got were got by private individuals. Some men had paid the state, the state had their money and they have no title; thought all the trouble was caused by the failure of the state to get titles. Was not here to represent any swamp land interest; did not favor any vicious system. The state had sold lands to which she had no title, and he favored procuring titles, and opposed the bill as not broad enough. First secure a title and then sell the lands.

Gates repelled the charge that he had spoken in the interest of lobyists. Outside parties were interested, and he represented them, and supposed he had a right to. He represented a region as large as the seven counties of this valley, that has more swamp lands than this valley has. He was confident that there were features that are constitutional; favored many other features of the bill. He had no part in enacting the swamp land law, and was not a swamp land grabber. Not a deed had been made, and yet the law was passed eight years ago. Not one tenth of the swamp land has had any payment made upon it: the laws required payment in 90 days, and when not paid the claim cannot hold. So the land is not tied up. They want it for actual settlers! Why, they would have to settle in a boat, or climb to the forks of a tree. He applied for 160 acres, but could not get any title to it; was in earnest in thinking it violated the constitution. His lobby was all east of the mountains, anxious because they understand some amendment will be made to the law. People east of the mountains are especially interested in the matter. Any person who wants to locate land can be called a land grabber. Nine-tenths of all the swamp lands are open to location. Divide it up if you want to, but as swamp lands often lay in large bodies that could not easily be done. From his observation 160 acres of swamp land is not desirable. He subscribed to let the people have it and do what they will with it. It has no value now, whatever. He did not think it very valuable, and except for grass it is valueless. The house shows a disposition to pass it, and if it passes in the present shape it will cost the state some litigation.

Speaker Thompson said he had not wished to make any unjust insinuations. The provision making the governor agent was not a new one, but had always been so, and the U. S. recognizes no one else. As to titles, the bill provides for sale of selection by the state and confirmation, and the board can not sell them until that is done. Swamp lands are granted on condition that the lands shall be drained, and the bill proposes to leave it to purchasers to drain or not, but did not think the general government would ever interfere. The locator can make title perfect by drainage. They are not to be actually settled on. The bill tries to prevent grabbers, and requires a stringent oath and limits sales to 320 acres. The bill seems to violate obligation of contracts by repealing the act to permit wagon road warrants being received as payment for swamp land. Hoped all interested would make suggestions to the committee. Felt indignant at the result of recent investigations. We had better have too strong a check than not strong enough. We should change the present uncertain state of the land law.

Purdin read the names of men who rushed to locate when the law passed, ranging from H. C. Owens, 1,000,000 acres, down to locators who filed on 100,000 acres, and asked where an acre of the land has ever been drained.

Reed had never claimed or owned a foot; nobody had lobbied him. No lobbyist had ever approached him at any session. There was no influence that he knew of. He wanted the bill to be constitutional.

Scott said he and others at first thought this bill a job, and he did not for some time realize that this was a bill in the interest of the state. Was not entirely satisfied yet. Some of the provisions he was not certain of. Questioned if warrants worth only 20 cents on the dollar should be received for the lands. Favored it if it was against the land jobbers.

Several motions to adjourn were voted down.

The previous question was called for, but as the house wanted to go to supper, they acted good for five minutes without it, and referred the bill to a special committee composed of Purdin, Starkweather, Gates, Scott and Grant. House adjourned.

Spirits and Vanderbilt's Will.

From the New York Tribune.]

Spirits are now on tap in the Vanderbilt will case. The surrogate has not revised the decision in relation to the inadmissibility of evidence involving the belief of the testator in spiritualism; but has allowed the widow of medical clairvoyant to lay bare a conspiracy in which Mr. William H. Vanderbilt is represented as taking a leading part. Apparently, there was no help for it. The counsel offered to prove by this creature that her husband was hired to communicate to the Commodore a message from the spirit of his dead wife in relation to leaving the bulk of the property to the eldest son; and obviously the confession of the wife of a conspirator had to be received. A more fantastic tale than this account of a millionaire's son skylarking with artificial spooks and bribing a swindler to manufacture to order messages from the spirit land—from his dead mother, as it happened—was never told outside of Balzac or Bedlam.

Earl Beaconsfield is reputed a rich man by marriage and otherwise, although before obtaining his pension of $10,000 a year he had to make a declaration of poverty.

THE PLUMMER FRUIT DRIER.

How shall I make a fortune? Why, if you are a farmer and have an orchard, get hold of one of the

CELEBRATED PLUMMER FRUIT DRIERS

And your fortune is assured. Just think of it, in primitive New England days the frugal housewives and their thrifty daughters used to buy nearly all the family groceries by peeling apples by hand and drying them around the kitchen stove or in the sun. A very slow and tedious process, to be sure, but still it was done. But presto change! See what human ingenuity has devised! The Plummer Fruit Drier is to the fruit drying process what the sewing machine is to the household sewing, what the gang plow is to the ranch, what the spinning jenny is to the mill. It is the great labor-saving machine, the great money-maker invention to the fruit raiser.

WHAT IS THE PLUMMER FRUIT DRIER?

Briefly, it is a large, well contrived construction, capable of holding some fifteen or more frames or trays, together with so many square yards of galvanized wire cloth on which to spread the fruit. This frame may be set in the orchard, or any other accessible or convenient place, and it can be operated by a couple of boys or girls, and is guaranteed to dry from one and a half to two bushels of apples per hour. Just for a moment stop and compute the worth of such a machine in a household! We are not speaking now of its *labor-saving* advantages. We refer strictly to its

CAPACITY FOR MONEY MAKING

It is a fact that over three hundred of these driers are now in successful operation in the state of Oregon and Washington territory. The parties using them are drying from $500 to $1,200 worth of fruit each year, and using only the regular force of labor in the family at odd times, or in stormy weather. Is not this a source of revenue worth looking after? Besides this, the fruit dried by this process by these same people has been

AWARDED THE GOLD MEDAL FOR EXCELLENCE

By the Oregon State Agricultural Society. The flavor, color and condition, of the fruit is unsurpassed. It has been a crying sin and shame that so much delicious fruit has gone to waste. Heretofore there has not been facilities for getting it to market, and it has been left to decay upon the ground. What a waste! Now it can all be made a source of revenue.

THE CHILDREN CAN BE SET TO WORK,

And thus two great ends may be conserved at the same time, namely, the fruit can be made to yield a handsome income, while the children are learning the grand wholesome lesson of thrift, industry and economy. We repeat it! Every farmer who has fruit should by all means have one of these incomparable Fruit Driers. And it is to be remembered that there are

NONE SO GOOD IN ALL RESPECTS

As the Plummer. It has received the most flattering credentials from all parts of the country. It would take a solid column to enumerate the different well known names whose credentials stand for the Plummer Fruit Drier. We have omitted to state that there are different sized driers. The Factory Drier is much larger, and is capable of drying six bushels of fruit per hour. It requires four hands to work this machine. These machines are peculiarly adapted to the preserving of Potatoes by the "Plummer Process." They have already a world-wide celebrity. Green Corn, Beans, Tomatoes, and, in fact, all sorts of vegetables and fruits can be successfully treated by this same process.

FULL INSTRUCTIONS ARE GIVEN

And those who visit the Fair should by all means examine these Driers for themselves. The most polite and courteous attention is paid to all, and the genial consideration given to all inquiries makes it a delight to ask questions. Everybody should make it a point to see the celebrated Plummer Fruit Drier. Every fruit-raiser should study his own interest by purchasing one of them. The investment would prove as rich as the Bodie, and far more permanent.—*S. F. Bulletin*.

The flattering testimonials to the operating and work done by the *Plummer Fruit Drier* continue to pour in upon the inventor. No other machine compares with it in *cheapness* and the *effective manner* in which it works. The eighty cases of fruit recently sent to the great *Paris Exposition*, the telegraph announces was awarded the *Paris Medal*. This, together with the great *Centennial Medal*, that was awarded at Philadelphia in 1876, and the *Gold Medals* of the State of *Oregon* in 1876 and 1877, only shows the appreciation of this *great invention* by the public at large. *For economy it has no equal*. Oregon has such a number of these Driers in operation that she is enabled to export a staple article of dried fruit unsurpassed by any in the world, thereby creating a demand that is continually increasing in importance. The fine flavor which the fruits of this region contain is all preserved by this process, making them equal to fresh fruit, destroying the toughness common to dried fruits, and impervious to all insect life, making it perfectly safe for the merchant to invest at all seasons of the year without fear of having it destroyed by vermin. Fruit dried by the *Plummer process* may be kept for years and yet retain all its nutriment and nourishing qualities, and will become a great source of revenue to any state where it may be introduced. Everything that is preserved by it is *absolutely pure* as no chemicals are used in the curing of *Fruits, Fish, Meats or Vegetables*.

The Driers have all been manufactured up to this time in Oregon under the supervision of the inventor, and every machine properly set, and purchasers fully instructed in its operation and in the preparing and packing of fruits. I ask the fruit-growers of Oregon to investigate this process, and although all other Fruit Driers have been partial failures financially, this one has proven itself a grand success in three hundred and fifty distinct trials. Do not let this year's crop pass without a full investigation of its merits, and then purchase before you lose another season so valuable to yourself and family. Address,

W. S. PLUMMER, E. Portland, Ogn.

New York 5's closed at 9¾; do 4½'s at 2¼.

English Wheat Markets.

LONDON, Oct. 9—3 P. M.—Floating cargoes quiet; cargoes on passage and for shipment very little inquiry; Mark Lane market heavy.

Quotations of good cargoes, off coast, per 480 lbs sea damage for seller's account, less usual 2½ per cent. commission: Med. Ch. or Mil. wheat, 42s 6d; red winter, 42s@42s 6; California, 48s@48s 6d.

Good shipping California wheat, on passage, per 500 lbs, Queenstown for orders, just shipped, 46s; nearly due, 47s; Fair average Ch. or Mil., for shipment during present month and following one, per 480 lbs, Am. terms, 37s 6d.

Imports of wheat into U. K. past week, 265,000@270,000 qrs; flour, 40,000@45,000 bbls.

LIVERPOOL, Oct. 9.—Wheat market on spot, dull. Quotations are as follows: Fair to choice shipping California, per cental, 9s 9d@10s 1d; fair to choice shipping club, per cental, 10s 1d@10s 4d; red Am. spring, No. 2 to No. 1, 8s 4d @9s 8d.

Domestic Produce.

In the face of a dull and changing foreign market the local wheat market remains firm, sales being made, as during last week, at $1 50@1 52½ per cental. In one instance a rare parcel of wheat was sold at a higher figure. The cause of this gratifying but unnatural condition of the market is that ships here accept charters at rates below standard; and this counteracts the decline in England. A great deal of grain from up the valley and from Walla Walla is coming in; but it mostly goes into warehouse. Farmers' deliveries are small, which tends to keep up present prices.

In standard brands of flour the jobbing trade has been good during the past week. The cutting under quotations of which we spoke last week has not been practiced this week so much as last. A good quality of flour is coming from the outside mills this year.

Barley deliveries are very light, not being sufficiently great to supply the local demand. Market quotable for brewing at $1 20@1 45 per cental.

Hops, in both this state and Washington territory, are of better quality this year than ever; quotable from 5@9c.

Home Produce Market.

WHEAT—We quote at $1 50@1 52½ per cental market steady.

FLOUR—Quotations are as follows: Oregon City Mills, McLeran, Salem Flouring Mills and standard brands of extra, in jobbing lots, $4 75@5 per bbl; country extra, $4 50@4 62½; superfine, $4@4 50.

OATS—Deliveries are fair. Our market is weak and dull. From first hands is quoted at $1 15@1 20 per cental, owing to quality.

MILL FEED—Supply fair, bran quotable at $15 per ton, shorts $25, middlings $30.

POTATOES—The market is steady at quotations. Quotable from first hands at 80c@$100 per 100lbs.

HAY—Receipts fair; prices range from $9 50@10 per ton for baled timothy and $8@9 for loose do.

ONIONS—In fair demand for the local trade, and for shipment, quotable at 2c per lb for best varieties.

BACON—The market is fairly supplied for the home demand and prices are steady. Quotations are 10@11c for sides, 12@13c for hams, and 7½@8½c for shoulders.

LARD—The demand is good and the market steady at 10@12½ cents per lb in tins and kegs.

DAIRY PRODUCTS—Butter, solid, 12@15c per lb; choice dairy 18@22c; cheese, quotable at 15@16c per lb.

EGGS—The demand is firm at 32½c per dozen.

CHICKENS—Very choice hens, $3@4 per doz; mixed lots, $3 00.

DRIED APPLES—Quotable at $5@6½c per lb for sun dried.

DRIED PLUMS—With pits, 4½@5c; pitless, 9@12c per lb.

WOOL—Valley 15@19; Eastern Oregon from 12½@17.

San Francisco Produce and General Markets.

SAN FRANCISCO, Oct. 10

Wheat—Sale of fair to good California milling at $1 62½. Demand from Millers is of a slow and cautious character. For California shipping the market is favorably affected by low charters. The market is now firm and prices have probably reached bottom. Buyers manifest the same indisposition. Offerings are small, and are mostly medium qualities, which are difficult to sell. Sale of 1,000 centals good at $1 65 alongside.

Flour—Market dull and prices favor buyers.

Barley and oats unchanged.

Wheat—Some of Walla Walla ex Ancon sold at $1 60; balance held higher.

Corn—Small yellow, $1 17½ was paid; large do. $1 15.

Rice—Quiet; country and grocery demand light; prices unchanged.

Hops—Oregon and Washington territory unsold.

ATLANTIC MARKETS.

PHILADELPHIA, Oct. 10

Wool—Quiet and firm at 18@25c for California fine and medium, and 18@20c coarse.
